FUTURE OF PVRTA...

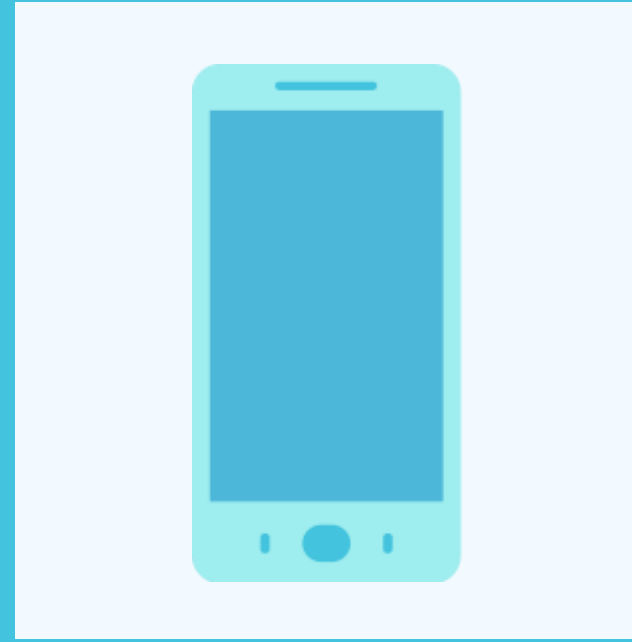

WHATS NEXT?

- Information & Customer Facing Technologies
- Zero Emission Bus Implementation
- Expansion of Services

FUTURE TECHNOLOGY *Options*

Online

App

Phone Call

Technology Integration

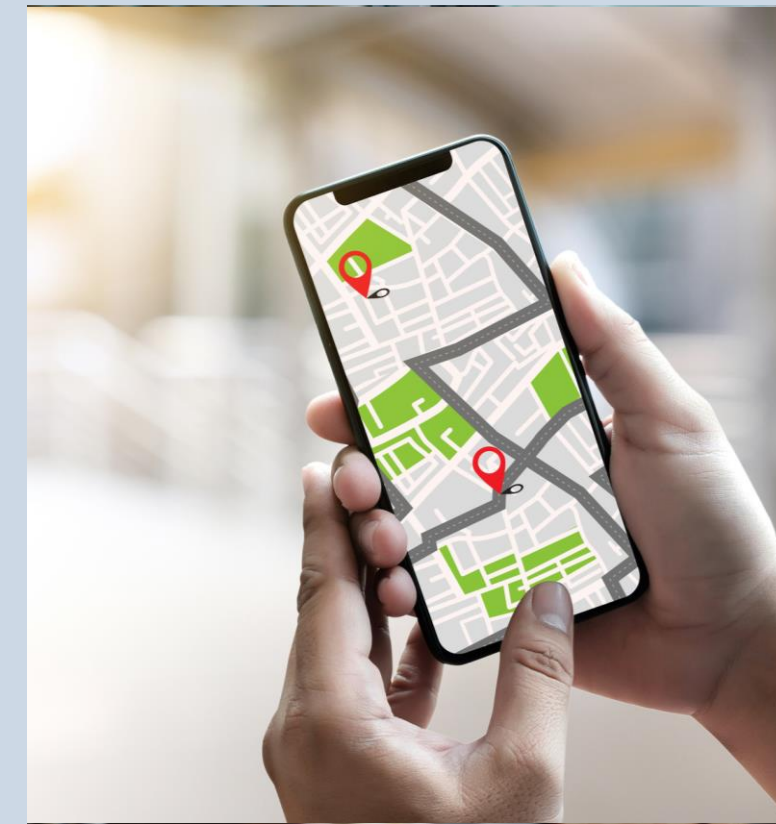

SCHEDULING

Being able to schedule a trip on one of our services through the web, an app, or by phone call

NEXT STOP

Being able to simply see where and when the nearest stop to a shopper shuttle or other future programs are.

TRACKING

Being able to know where your vehicle is and getting an approximate ETA

Zero Emission Buses

(ZEB)

CALIFORNIA MANDATE

The California Air Resource Board (CARB) Innovative Clean Transit (ICT) regulation has a goal of transforming public transportation to full zero emissions by the year 2040. Public Transportation Agencies such as PVRTA need to have a plan in place by 2023 and begin acquiring ZEB vehicles by 2026.

PVTA ZEB GOALS

- Study the area and have a completed plan by 2023
- Working with the community, stakeholders, and utility companies to ensure that the plan can be expanded upon in future years.

CHARGING STATIONS...

PVTA VEHICLES

Having infrastructure in place to charge our vehicles as needed.

PUBLIC VEHICLES

Having some of these stations be available to the public during the day.

FINDING LOCATIONS

Being able to use the PVTA app to see if there is a station available near you.

EXPANDING SERVICES- SHOPPER SHUTTLE

CURRENT

- Fixed dates and times
- Fixed routes
- Free to anyone
- South Pomona ONLY

FUTURE GOALS

- Flexible schedule
- Flexible routes
- Techonology
 - Reserve & Track
- Expand area
